

## 2018 pricelist

---

This pricelist is not exhaustive! More varieties and sizes may be available at the nursery or can be propagated on request.

Some varieties are only propagated in small numbers and may be sold out!

The Diospyros collection is one of the largest in Europe!

Feel free to ask about varieties not mentioned below; they are probably available for propagation on request.

More Asimina varieties are also available for propagation on request

Professionals please ask for price offer or ask if you have special requests.
